

## TREES AND SHRUBS

### ABELIA

Edward Goucher	Semi evergreen shrub with arching branches. Flowers lilac pink	10.00
grandiflora	Evergreen shrub with arching branches. Flowers July to October white slight fragrance.	10.00
Francis Mason	Similar to Grandiflora with gold variegated leaves	10.00

### ACER (Maple)

campestre	(Field Maple) small leaved bushy variety suitable for inclusion in a mixed hedge or as small specimen (see also hedging)	20.00
capilipies	(Snake Bark Maple) small tree with striated bark on young growth	20.00

*Japanese Maples (japonica and palmatum types) make ideal slow growing small specimen trees for the garden with attractively shaped leaves which usually colour well in the Autumn. They prefer a moist, well drained soil on the acid side, in a position that is sheltered from late frosts and Spring winds. Suitable for tub growing.*

**Acer japonica Aconitifolium** small spreading tree with red autumn tints 1.5m 10/yr  
£20-30.00

**Acer schirasawanum Aureum** soft lemon leaves, slow growing, requires  
*Protection from full sun* £20-30

#### *Acer palmatum*

“ **Atropurpureum** Purple leaves, turn red in Autumn 15.00  
4m (12') / 10yrs

Grafted varieties £25-£50.00

Beni Shichihenge	Green, pink leaves 2m/10yrs
Bi Hoo	Leaves orange turning yellow. Bark orange yellow in winter Upright growing 2m/10yrs
Bloodgood	Deep redish purple leaves, attractive fruits
Dissectum	Green finely cut leaves. red in Autumn Rounded bushes 1.2m (4')/10 years
Garnet	Finley cut purple leaves 1.5m /10 years
Inaba Shidare'	Finely cut purple leaves 2m (6')/10 years
Orangeola	Small disected leaves orange red in colour 2m/10yrs
Red Pygmy	Finely cut red leave crimson in autumn 1.5m/10yrs
Red wood	Green leaves with red autumn tints and brigh tred bark
.Scolopendrifolium	Atro red young foliage autumn orange/ red
Shindeshojo	Small leaves bright pink when young fading to purple green when mature yellow in autumn 4m/10yrs
Tamukeyama	Small tree with cut red purple leaves
Trompenburg	Shiny red leaves crimson in Autumn 4m/10yrs

Ballerina C 25.00

## AZALEA

Japanese evergreen Azaleas 3 lit 10.00

BEECH see Fagus

## BERBERIS

7.5lit 20.00

*A very useful family of deciduous and evergreen members in a range of sizes from 0.60-5m (2' to 15'). Tolerant of all soils and conditions, even dry shade from trees. All produce small yellow or orange flowers in the Spring, and some follow with decorative fruits. All have characteristic triple thorns on their stems which need to be respected! May be used for hedging. Prune after flowering.*

sargentiana (E) 3m (8') Dense broad evergreen, with leathery leaves and

Masses of perfumed spring flowers. Autumn colour

Thumbergii Helmonds Pillar Upright form with purple leaves

verruculosa (E) 1.5m (4') Strongly arched dome of shiny triangular

leaves assuming red winter tints.

BETULA (Birch) 2/3lit £8 5lit £20 13lit 30.00

*A family of light graceful trees attaining 8m + (25'). Use for group or specimen planting. Suitable for all soils. They cast light shade themselves and so may be under planted with groups such as Heathers, Rhododendrons and Camellia. Birch are synonymous with white bark, however seedling forms vary in this characteristic. Named varieties have been selected for their superior qualities of habit and bark colouring, A feature of Birch is their yellow gold Autumn appearance.*

B. albo-sinensis 'septentrionalis' mature bark peeling coppery pink, mat green leaves. Introduced. 1908 by E. Wilson

B. alleghaniensis 'Lutea' medium sized with shiny creamy white peeling bark. leaves turning a blaze of yellow 5

B. ermanii bark pink turning creamy white.

B. nigra 'River birch' light brown flaky bark spreading habit tolerates wetter soils

B. papyrifera Paper birch Large growing tree with papery white bark

B. pendula

Dalicalica Sweedish Birch. Upright tree thinly branched tree  
With deeply cut leaves

Fastigiata upright columnar habit

Tristis strongly weeping form. taller than Youngii

Youngii a selected form of strongly weeping habit  
developing a broad umbrella head 15' tall

B. utalis jacquemontii white peeling bark glossy leaves

“ 'Doorenbos' / Snow Queen, white bark on young tree

“ 'Greyswood Ghost' white bark on trunk and younger shoots

“ 'Silver Shadow' white bark, smaller growing

Buddlea davidii Butterfly Bush £10  
Black Knight deep crimson purple

## BUXUS

£5-12

sempervirens

suffruticosa miniature variety

**CARPINUS** betulus (Hornbeam) feathered trees 7.5lit 20.00

**CATALPA** bignonioides (Indian Bean Tree) 20.00

*From eastern U.S.A. low wide spreading domed 6 x 7m (15' x 20') tree with large heart shaped leaves and lovely perfumed panicles of flowers in July, reminiscent of Horse Chestnut. Followed by brown "runner bean" like pods in Autumn. An interesting specimen tree preferring good soil and a sunny position. Our trees are a selected form, grafted to produce flowers from an early age.*

Catalpa b. Aurea beautiful eye catching golden leaved form. . 3lit 25.00

*Responds well to stooling in Spring to gain larger leaves and emphasis as a shrub with strong colour throughout the Summer. 120-150cm (4' x 5') when pruned annually to three buds of last season's growth in May .*

3lit 10.00

**CHAENOMELES** (Japonica) (Flowering Quince) 3lit 15.00

*Easily grown Spring flowering shrubs, either free standing or wall trained. Also makes a good hedge. Flowers March to May, copes with frost and shade, therefore useful for North and East walls. Edible quinces in Autumn. Hard Winter pruning reveals flowers. Attractive young red tinged leaves*

*Snowwhite, strong growing  
Red, Orange , Pink, White.*

**CISTUS** (E) (Sun Rose) 10.00

*Quick growing Summer flowering shrubs for dry sunny sites. Tend to be short lived approx. 5 years. Dislike pruning, dead head only.*

Ladanifera

tall growing white flowers with chocolate base

Purpurea

pink flowers with darker center

**CORNUS** (Dogwood) 10.00

*Shrub grown for winter colour of bright red young bark, which is often maintained by hard pruning (stooling) in Spring. 2 x 2m (6' x 6') if stooled. Copes with damp soils.*

sanguinea Winter Beauty

shoots yellow leaves bark bright orange yellow in winter

alba

white fruits, bright red wood in winter

## CORYLUS (Hazel)

avellana Contorta (Corkscrew Hazel)

7.5lit 20.00

*Amazing spiralled and looped stems contrast well with Spring catkins. Useful for flower arrangers. Summer foliage is not so attractive. Discovered in 1853 in a hedgerow. 3 x 2m(10' x 6')*

Maxima Purpurea purple leaved hazel C
