parviflora spreading shrub 2.5m high flowers July-August C 30.00  
Horse Chestnut C 15.00

## AMELANCHIER

Ballerina C 25.00

## AZALEA

Japanese evergreen Azaleas 3 lit 12.00

BEECH see Fagus

## BERBERIS

7.5lit 20.00

*A very useful family of deciduous and evergreen members in a range of sizes from 0.60-5m (2' to 15'). Tolerant of all soils and conditions, even dry shade from trees. All produce small yellow or orange flowers in the Spring, and some follow with decorative fruits. All have characteristic triple thorns on their stems which need to be respected! May be used for hedging. Prune after flowering.*

sargentiana (E) 3m (8') Dense broad evergreen, with leathery leaves and

Masses of perfumed spring flowers. Autumn colour

verruculosa (E) 1.5m (4') Strongly arched dome of shiny triangular leaves assuming red winter tints.

BETULA (Birch) 2/3lit £8 5lit £20 13lit 30.00

*A family of light graceful trees attaining 8m + (25'). Use for group or specimen planting. Suitable for all soils. They cast light shade themselves and so may be under planted with groups such as Heathers, Rhododendrons and Camellia. Birch are synonymous with white bark, however seedling forms vary in this characteristic. Named varieties have been selected for their superior qualities of habit and bark colouring, A feature of Birch is their yellow gold Autumn appearance.*

- B. albo-sinensis 'septentrionalis' mature bark peeling coppery pink, mat green leaves. Introduced. 1908 by E. Wilson
- B. alleghaniensis 'Lutea' medium sized with shiny creamy white peeling bark. leaves turning a blaze of yellow
- B. nigra 'River birch' light brown flaky bark spreading habit tolerates wetter soils
- B. papyrifera Paper birch Large growing tree with papery white bark
- B. pendula
  - Fastigiata upright columnar habit
  - Youngii a selected form of strongly weeping habit developing a broad umbrella head 15' tall
- B. utalis jacquemontii white peeling bark glossy leaves
  - “ ‘Doorenbos’ / Snow Queen, white bark on young tree
  - “ ‘Greyswood Ghost’ white bark on trunk and younger shoots

**CARPINUS** betulus (Hornbeam) feathered trees 7.5lit 20.00

### CAMELIA

Debbie double pink flowers early spring

**CATALPA** bignonioides (Indian Bean Tree) 25.00

*From eastern U.S.A. low wide spreading domed 6 x 7m (15' x 20') tree with large heart shaped leaves and lovely perfumed panicles of flowers in July, reminiscent of Horse Chestnut. Followed by brown "runner bean" like pods in Autumn. An interesting specimen tree preferring good soil and a sunny position. Our trees are a selected form, grafted to produce flowers from an early age.*

Catalpa b. Aurea beautiful eye catching golden leaved form. . 5lit 25.00

*Responds well to stooling in Spring to gain larger leaves and emphasis as a shrub with strong colour throughout the Summer. 120-150cm (4' x 5') when pruned annually to three buds of last season's growth in May .*

3lit 10.00

**CISTUS** (E) (Sun Rose) 12.00

*Quick growing Summer flowering shrubs for dry sunny sites. Tend to be short lived approx. 5 years. Dislike pruning, dead head only.*

Ladanifera tall growing white flowers with chocolate base

**CORNUS** (Dogwood) 15.00

*Shrub grown for winter colour of bright red young bark, which is often maintained by hard pruning (stooling) in Spring. 2 x 2m (6' x 6') if stooled. Copes with damp soils.*

sanguinea Winter Beauty shoots yellow leaves bark bright orange yellow in winter

alba white fruits, bright red wood in winter

controversa Variagata branches in layers variegated leaves (Wedding Cake Tree)

### CORYLUS (Hazel)

avellana Contorta (Corkscrew Hazel) 7.5lit 25.00

*Amazing spiralled and looped stems contrast well with Spring catkins. Useful for flower arrangers. Summer foliage is not so attractive. Discovered in 1853 in a hedgerow. 3 x 2m(10' x 6')*

Maxima Purpurea purple leaved hazel C 5lit 20.00

Cob Nut 3lit 20.00

### CRATAEGUS (Thorn)

laevigata Red Cloud single scarlet flowers 5lit 15.00

prunifolia shiny plumlike flowers 5lit 15.00

Lavallei small dense thorn less tree with orange fruits

**ELAEAGNUS** (E) 7.5lit 20.00

*Tough, reliable evergreens for Winter, some variegated, good wind resisters suitable for hedging and seaside planting.*

x ebbingei 'Limelight' yellow edged grey green leaves silver reverse,

Winter flowers, perfumed of Pinks, fast grower

'Gilt Edge' leaves margined with yellow

pungens Maculata gold central variegated holly-like leaves. A tough bright evergreen ideal for the Winter garden. Remove reverted shoots.
